COUNTRY CLUB ROAD OVER ABANDONED RAILROAD

RebuildIndy is Mayor Greg Ballard's initiative to restore deteriorating thoroughfares, residential streets, sidewalks and bridges, as well as address neighborhood drainage and flooding issues and demolish unsalvageable abandoned homes that pose a public safety threat to neighborhoods. This investment in infrastructure will address problems throughout Indianapolis.

These construction projects will create local jobs and ultimately increase public safety for neighborhoods and residents, which supports Mayor Ballard's commitment to make Indianapolis a more livable city.

PROJECT SCOPE

The Department of Public Works (DPW) has completed a bridge removal project planned for Wayne Township. The project on Country Club Road over an abandoned CSX rail road is south of Crawfordsville Road and included a complete bridge removal. The improvements to the area included the addition of a multi-use path to the west side of Country Club Road.

DPW constructed an underpass as a pedestrian pathway for a future trail along the railroad alignment. Construction took place in 2012. Traffic was detoured for the duration of the project via Crawfordsville Road, Girls School Road and 21st Street.

PROJECT DETAILS

PROJECT STATUS: Complete

CONSTRUCTION PERIOD: April 2012 to July 2012

PROJECT COST: \$1.4 million

DESIGN ENGINEER: Stephen J. Christian & Associates

CONSTRUCTION ENGINEER: H.I.S. Constructors, LLC

PROJECT BENEFITS:

- Increased pedestrian safety
- Improved pedestrian traffic and connectivity between businesses and residents

Project schedules and costs are subject to change.
